Application No. PCT/GB99/00741 filed March 12, 1999."

On page 1, before the second paragraph, insert the heading "**Background of the Invention.**"

On page 4, before the first paragraph, insert the heading "**Summary of the Invention**"..

On page 8, before the second paragraph, insert the heading "**Brief Description of the Drawings.**"

On page 8, before the fourth paragraph, insert the heading "**Detailed Description.**"

On page 26, last line to page 27, first line, delete the text "disclosed in UK patent application No. 9925653.9, the contents of which are incorporated herein by reference.

This describes the" and insert the text --a--

Add the following abstract at the end of the application:

**Abstract**

An organic polymer having a plurality of regions along the length of the polymer backbone and comprising two or more of the following a first region for transporting negative charge carriers and having a first bandgap defined by a first LUMO level and a first HOMO level; and a second region for transporting positive charge carriers and having a second bandgap defined by a second LUMO level and a second HOMO level; and a third region for accepting and combining positive and negative charge carriers to generate light and having a third bandgap defined by a third LUMO level and a third HOMO level, wherein each region comprises one or more monomers and the quantity
